### **We are running on iView.**

What is iView? iView is a program that allows you to see your account any time of day or night. Look at scale tickets, contract listings and balances, all accessible from your home computer.

### **REMINDER:**

***It has always been, and continues to be company policy that in-store bushels do not apply to to-arrive contracts.***

***To-arrive contracts are written for delivery in the month which they are written.***

A very quiet day today to start off the week. Beans traded higher on the day finishing up a nickel, and finding support from crude oil which moved a little higher. Corn traded both sides in a quiet market. Positions spent the day getting squared up ahead of Wednesday morning's report. I expect another quiet day tomorrow.
